ABOUT ME

Aspiring and dedicated BCA student with a strong passion for software development, particularly in full-stack web development using the MERN (MongoDB, Express.js, React.js, Node.js) stack.

Eager to leverage my technical skills and internship experience to contribute to innovative projects in a challenging work environment.

My goal is to grow as a software developer by continuously learning and applying new technologies.

WORK EXPERIENCE

Softronics calicut, India

Internship Experience

Current

Job Role & Responsibilities:

- Assisted in developing full-stack applications using the MERN stack.
- Gained hands-on experience with MongoDB for database management, Express.js for building REST APIs, React.js for front-end development, and Node.js for server-side logic.
- Worked on real-world projects and implemented features based on client requirements.
- Participated in code reviews, daily stand-ups, and Agile-based team collaboration.
- Enhanced understanding of version control using Git and GitHub.
